

Pointsharp S/4HANA quick check

Do you struggle with your S/4HANA migration? Perhaps you are still using the older S/3 Suite and have yet to start the big migration task for your organization. As seasoned SAP experts, we know the struggle and how daunting the task of migrating your entire data model, roles, and transactions can be.

That is why we have built the Pointsharp S/4HANA quick check. An automatic analysis of your SAP system, complete with a report and action plan of what you need to do for a successful migration. With minimal effort, get a complete overview and expert support in your migration journey.

Our goal: your future

Our S/4HANA Quick Check is implemented in your environment or uploaded to our lab. We then analyze your specific data, combined with the SAP Simplifications List.

The result is a comprehensive, in-depth report that includes everything affected by the migration in your system, relevant changes, and a clear action plan for successfully completing your migration in an easy, compliant, and secure way.

The S/4HANA quick check contains:

- Analysis of existing roles and transactions
- Analysis in relation to transaction codes that can:
 - be omitted
 - be replaced
 - be replaced by SAP Fiori Apps
- Importing the respective roles during a migration
- Final presentation, including a clear action plan

Feel confident about your S/4HANA project. Our intelligent software supports you during the migration and helps you build a solid authorization concept for the future.

We check everything for you

Our analysis results will be presented in a detailed report, giving you a complete overview and a clear action plan for an optimal migration.

Since all data analyzed in the Pointsharp S/4HANA Quick Check is based on your organization, everything will be tailor-made for your unique migration journey.

Advantages

- Identification of efforts for migration to S/4HANA
- Quick check of the currently used roles
- Simple overview of the affected roles
- Reduced costs compared to manual control
- Recommendations for further steps

Pointsharp is a European cybersecurity company that enables organizations to secure authorizations, access, identities, and data in a user-friendly way. Security must be easy to use, and our vision is to give everyone access to a safe, modern digital workplace. We provide specialized IAM solutions that are made to fit the most demanding and specific needs.

We deliver European-made cybersecurity software and services to customers worldwide. You can often find our customers in large enterprises requiring extra high levels of security and regulatory demands, like the financial, governmental, industrial, and defense sectors.

We have our headquarters in Stockholm, Sweden, with offices in Germany, Denmark, Switzerland, and the Netherlands.
